

Swiss brand Caman® presents the S GRIP PRO, a novel piece of equipment for video cameras

No, it's not just another grip.

The S GRIP PRO is a professional and multifunction grip which allows camera operators to unleash their camera's full potential.

Adjustable to your hand size, it's also the first camera grip on the market that makes it possible to pilot intuitively your video camera with all 5 fingers.

Towards more comfort and a better control of the camera

The S GRIP PRO was invented by Camille Cottagnoud, a Swiss director of photography with over 30 years of experience in the field of documentary film.

To successfully capture reality, you have to know how to be discreet, to blend into the scenery, to be able to sometimes remain still for extended periods of time in uncomfortable positions, to be reactive to succeed in capturing unique moments of life.

To meet all these requirements, Camille imagined a control handle that would facilitate access to camera settings while adding comfort and stability.

Focus on your main task : filming

The S GRIP PRO solves many comfort issues and allows users to access their camera functions more instinctively with their fingertips. It's a new gesture, a new way of filming for users who want to fully focus their attention on the scene.

Keypoints

- **Ergonomics** – Hand comfort has been optimized thanks to an ergonomic shape and quality, flexible and comfortable materials;
- **Customizable** – Assign the camera functions you need to the buttons and use combinations to reach even more functions;
- **Patented system** – Adjust the button spacing to your hand size to have your set camera functions at your fingertips;
- **Water resistant** – With its silicone coating, the handle is resistant to sand, water, dust or even salty air (IP66 certified);
- **Reactivity** – By controlling the accessible functions of your camera with your fingertips, handling settings and navigating menus becomes easy and intuitive;
- **Friction system** – Adjust your arm/wrist position with a simple gesture using nylon discs.

Sales

The Caman S GRIP PRO is currently available at a retail price of \$1,999 (tax excl.).

Olivier Halin

Caman Ambassador, Costa Rica

"In extreme conditions, like here in the little Amazonia during the rainy season, you may have to deal with moisture problems on your camera and on the lenses, but with the S Grip Pro, you can definitely forget about those issues. That's what I call high technology !"

David Vladyka

Caman ambassador, Switzerland

"I've been shooting snowboard, freestyle and freeride documentary films and commercials for about 20 years. For me, comfort, efficiency and reactivity are absolutely essential if you want to put all the chances on your side. So it's crucial to choose your camera gear well."
